

Virtual Conference 2020

Clinical ▪ Coding ▪ Compliance

May 18-20, 2020

AAMAS 2020 Speaker Diane Paturalski, RN, MHSA, CCS-P, AHFI

Wednesday, May 20
10:15-11:30 AM

Diane has a BS in Nursing plus a Master's degree in Health Services Administration, a certified professional coder and Accredited Health Care Fraud Investigator. She has more than 25 years in the health care industry with many recent years in focusing on the fight against Health Care Fraud Waste and Abuse detection, prevention and identification. Diane has worked the entire continuum of Health Care including an acute care, teaching hospital, private and government payers and vendors. She has a unique perspective that combines clinical, data, operational and other aspects of the health care continuum.

Brief outline of session:

This session will provide an overview of the importance of the auditor in fraud, waste and abuse detection and prevention. After attending and actively participating in the session, the attendee will understand the how, why, when, and where of that importance and gain additional insight on how to perfect that auditors intuition and collaboration in fighting FWA. I will provide some examples of red flags and some key actions that can be taken in perfecting the already keen sense of the auditor. Ultimately, I want the auditor to walk away understanding how valuable he/she is in the continuum of protecting the assets of the US Health Care system.
